UNFACET FOR TEAMS

One licence for the whole team.

Unfacet rebuilds Navisworks meshes as true B-rep solids for AutoCAD and Plant 3D. Teams of 10 or more get one licence with a named seat for each person, and a price quoted for their order.

Two ways to license

STANDARD

From $39 per seat, per month

Buy online at plantdraft.com/pricing

- One seat per purchase, for one person on up to 2 PCs
- **$39** a month, **$349** a year or **$899** perpetual
- Card payment at checkout
- Buy again for another seat; from 10 seats, ask for a quote

ENTERPRISE

Quoted from 10 seats

Priced for your team size and term

- **Named seats** on one licence, each for up to 2 PCs
- Yearly subscription or perpetual
- Your admin assigns and reassigns seats online
- One order, one renewal date, one tax invoice

How team seats work

Your admin adds each person by email at plantdraft.com/account. They install Unfacet and sign in with that email: no licence keys. When someone leaves, the seat goes to someone else.

Control for the admin

The account page shows who holds each seat and their PCs, which can be signed out remotely. Unfacet works offline for up to 14 days between licence checks.

In every licence

The Navisworks add-in and the AutoCAD / Plant 3D commands UFIMPORT, UFATTRIB and UFINFO, with no export limit. Updates are included for the term, or for 12 months with perpetual. Support is by email.

Ask for a quote

1. Company name and billing country
2. Number of seats
3. Admin's name and email
4. Yearly subscription or perpetual
5. Navisworks and AutoCAD versions
6. Proxy or restricted internet?
